Subject: RE: Save the Date: Carbon Market Platform – September 21–22

Hi Jane -

Yes, State will lead the delegation. At this time we don't see a need for EPA participation but appreciate the offer. I've shared with the climate team and will let you know if that changes.

Thanks,

Judy

Judy,

Presume that State will lead the US delegation to the Carbon Market Platform meeting - let us know if you want EPA participation.

Jane

Subject: Save the Date: Carbon Market Platform – September 21–22

Dear Colleagues,

On behalf of the Government of Canada and the Federal Republic of Germany, we are pleased to invite you to the third annual Strategic Dialogue of the Carbon Markets Platform, which will take place on September 21-22, 2018, in Halifax, Nova Scotia, Canada.

The Carbon Market Platform brings together a diverse group of countries to discuss how to develop and implement carbon pricing and carbon market mechanisms. Since its establishment in 2015, the annual Strategic Dialogue has grown to include senior representatives from more than 20 countries and international organizations. These officials are ideally situated to explore connections between political and technical challenges in carbon pricing at the domestic and international levels.

We are inviting senior representatives (Director General or equivalent) to join this dialogue to share knowledge and best practices on carbon pricing implementation, including common strategic, technical and institutional considerations. Participation will be limited to Head of Delegation plus one. The Dialogue also seeks to discuss potential synergies between domestic and international market mechanisms, without prejudice to ongoing negotiations under the Paris Work Programme.

A formal invitation and draft agenda will follow in the coming weeks. In the meantime, we encourage all interested participants to consult the following link to find out what document(s) may be necessary for travel to Canada: <http://www.cic.gc.ca/english/visit>.

Sincerely,

Catherine Stewart
Chief Negotiator for Climate Change
Environment and Climate Change Canada

Karsten Sach
Director General of Climate Policy
Federal Ministry for Environment
Germany
